

I urge you to do nothing to lessen the protection I receive since the passing of the Indiana Telephone Privacy law. Previous to the passing of this law I was bombarded with unwanted calls from various places. These calls came at the most inopportune times of the day. Because I am a senior citizen they often brought distress -- mostly because they were very persistent. I have had very few since this law was passed. I thank you for the opportunity given to me to let you know of my desires in this connection. Please do not change the peace of mind that I have been able to attain by this Indiana law.
